## MANUFACTURING ESTABLISMENTS OF RANDOLPH COUNTY—THE CENSUS.

FOR THE OBSERVER.

*Messrs. Editors:*—Knowing your disposition to publish everything which tends to advance the interest, and make known the resources of any and all parts of North Carolina, I have taken the trouble to collect together the statistics of the various manufacturing establishments of this county, and offer them for the information of your readers. In my own opinion, the county has great resources—most of them but little known, and but little appreciated when known. At some future time I hope to be able in my feeble way, to do something towards bringing them to the notice of the world.

The Deep River Manufacturing Company's establishment is located at Columbia, on Deep River, and is the lowest down the river of all the factories. The capital invested in the cotton manufacture is $40,000; they use up 125,000 pounds of raw cotton, which they value at $13,750; they produce 110,000 pounds of yarn—valued at $22,000. In the manufacture of cloth they use 36,000 pounds of yarn valued at $7,200, and produce 110,000 yards of sheeting—valued at $8,350. They have 1056 spindles and 20 looms, and employ 8 males and 46 females. They have also a wheat and corn mill, valued at $7,000, which turns out 1,000 barrels of flour and 2,000 bushels of meal; James Whitehead, superintendent.

The Island Ford Factory is next up the river, and has a very superior water power—owned by Coffin, Foust & Co. They have $13,000 of capital invested. Use 180,000 pounds of cotton, valued at $18,000, and produce 150,000 pounds of yarn—valued at $30,000. In the manufacture of cloth they use 75,000 pounds of yarn—value $15,000, and produce 210,000 yards of sheeting valued at $17,850. They have 1056 spindles and 20 looms, and employ 9 males and 42 females. I may add, that in my judgment, this concern is very well managed as the above statistics show. It is not now in the hands of the original owners—the company that built it having failed. Hugh Parks, superintendent.

Franklinsville Factory, owned by the Cedar Falls Company, capital $15,000; use 81,000 lbs. of cotton—value $8,100—produce 67,500 lbs. of yarn—value $12,150. Run 528 spindles, and employ 3 males and 15 females. They have also a wheat and corn mill which turns out 820 barrels of flour, and 2400 bushels of meal.

Cedar Falls Factory, owned by the Cedar Falls Manufacturing Company. Capital $25,000; use 210,000 lbs. of cotton—value $22,150—produce 30,000 lbs. of yarn—value $5,400—and 396,000 yards of sheeting—value $31,680. They run 1500 spindles and 38 looms, and employ 17 males and 55 females. It is not in the hands of its original owners—they having failed. It is a flourishing concern and well managed—the owners being practical, clear headed business men. Geo. H. Makepeace, superintendent.

Union Factory, owned by the Union Manufacturing Company, located 10 miles north of Asheborough, on the Greensborough road. Capital $14,000. They use 108,055 lbs. of cotton—value $11,345; produce 45,360 lbs. of yarn and 140,992 yards of sheeting. They have 1056 spindles and 21 looms, and employ 9 males and 39 females. They have also an oil mill in which they use 110 bushels of flaxseed, and make 150 gallons of oil. They have a wheat and corn mill which turns out 800 barrels of flour and 3000 bushels of meal. Jesse Walker, superintendent and agent.

These factories buy their cotton—some in Fayetteville, some in Charlotte, and along the N. C. Railroad, and some is hauled to them from Chatham. At each one of them a handsome little village has sprung up, and various other branches of industry are carried on. Cedar Falls, Franklinsville and Island Ford are very near together, and by the neatness of their appearance and the houses thick studded along the road remind one very forcibly of the New England manufacturing towns. The water power is very good, and there are still numbers of excellent sites unimproved. From the upper end of the Coal Fields to Jamestown, in Guilford, Deep River affords every mile or two, superior sites for milling or manufacturing purposes. Some complain of the want of water in the summer, but in my opinion there need be no such complaint, with care and an economical use of it—avoiding unnecessary waste. However, I will not lengthen this by an essay on water powers, but reserve that for the future.

There are in the County 5 Wool Carding Machines which turn out 15,600 pounds of clean wool; and I ascertain from the Census returns that there are about 10,000 sheep in the county. That it has peculiar advantages for the raising of stock and sheep, no one who has ever travelled through will deny, and there should be ten times as many.

There are two oil mills—one mentioned above—the other turns out 260 gallons of oil—owned by J. G. Hinshaw.

There are 8 tanneries jointly turning out $29,785 worth of leather. The largest of these concerns is that of A. U. Tomlinson & Sons at Bush Hill, 4 miles South of High Point. They have $8,000 invested in tanning, use steam power and produce $12,000 worth of leather. They have $1000 in boot and shoe making, and make 100 pair boots and 1000 pair of shoes. They also have an establishment for making machinery belts and wagons. N. C. Petty & Co., carry on the Cabinet making business at the same place and turn out $2,500 worth of various articles. Messrs. Steed also make boots and shoes at their tannery near Asheborough.

There are 4 establishments where spirits of turpentine barrels are made and sold in your town. There are nine manufactories of wagons, buggies, &c. Three manufactories of stone ware—the ware of which is very superior. They turn out about $3000 worth of ware. There are now *four* establishments of this branch of industry.

There are 22 saw mills, and 49 grist mills. The product of the grist mills is 43,996 barrels of flour, (which at $5 per barrel is $219,980,) and 103,540 bushels of meal.

I find only two gold mines put down as regularly worked. The joint product of which is 2940 pennyweights valued at $2,569.

It is stated that 472 bushels of flax seed is grown in the county and I notice that the average amount put down is about 20 pounds of flax to the bushel of seed, which would give 9440 pounds as the amount produced. I must confess that I did not know that any was grown in the county.

I had intended to have sent you the amount of wheat, corn, rye, &c., produced in the county, but as it would be necessary for me to add up some thousand columns of figures, I must leave that out as I cannot spare the time requisite. The wheat and corn can be approximated from the amount of flour and meal above stated. There was over 4000 gallons of Chinese sugar cane molasses made in the county, and nearly 20,000 pounds of butter.

The population of the county is; whites 13,817; free blacks 445; slaves 1,723. The oldest person died during the year was aged 92 years.

I trust I have not lengthened out these statistics too much. I have drawn most of the information from the Census returns, some other facts from my own inquiries. I hope at some future time to give you some information upon the soil (and its capabilities,) and the mineral products of this county, should it be your desire.

Yours, &c. H. E. C.

*The Day of Humiliation and Prayer.*—The recommendation of our Synod, setting apart Monday, Nov. 5th, as a day of humiliation and prayer in view of the present crisis in the political condition of our country, was very generally observed in Fayetteville. At 12 o'clock a prayer-meeting was held in the Presbyterian church and at 3½ o'clock another in the Methodist church. At both these meetings Christians of the various denominations assembled to pray for a common object. The churches were well filled, and the day was one that will not soon be forgotten by our people.

A letter from our Associate, G. McN., informs us that the Day of Fasting and Prayer was observed with due solemnity at Davidson College and Charlotte. At the latter place he had the privilege of attending the services of the afternoon, and the congregation was large and serious. It is hoped that many other churches complied with the recommendation of Synod, and if a similar spirit prevailed in *all*, the happiest results may be expected from the observance of the day.

We learn from the Standard that the day was also observed in Raleigh. Rev. Messrs. Johnson and Tucker of the Methodist church assisted Mr. Atkinson in the services.—*N. C. Presbyterian.*

---

*Mecklenburg Agricultural Fair.*—The Annual Exhibition of the Mecklenburg Agricultural Society was held on Wednesday, Thursday and Friday. Although the weather was very unfavorable, with a great deal of rain on Thursday and Friday, the Fair was a grand success—equal to any ever held in the State, not excepting the State Fair at Raleigh. The number of visiters was very large, and there were articles on exhibition from all the surrounding counties and others in N. Carolina, and from several Districts in South Carolina.

The Horses, Cattle, Hogs and other stock were of a superior quality, and we heard gentlemen, who ought to be good judges, say it was as fine an exhibition in that line as they ever saw anywhere. Floral Hall and Mechanics' Hall were well filled, and the display of the handiwork of the ladies, and the work of the ingenious Mechanic, was very creditable to that class of exhibitors. 988 articles were entered for exhibition.—*Char. Dem.*

The Democrat publishes a long list of premiums, paid mostly in plate; a good plan.

---

*State Educational Association of North Carolina.*—The next annual meeting of this Association will be held in Wilmington, the session beginning at seven o'clock, P. M., on Tuesday, the 13th of November.

As usual, the delegates will be passed over the various railroads in the State for half fare, and will be hospitably entertained at the place of meeting.

---

*Diptheria.*—This awful epidemic pervades the principal part of Virginia and a portion of this State. It comes on with the symptons of a cold, attended by fever. Soon, and sometimes preceding these symptons, there is a deposit in spots of a whitish or greyish white membrane upon the tonsils and back part of the mouth. This membrane increases with great rapidity, the fever becomes of a typhoid character there is great constitutional depression, the breath becomes fætid, and in some cases the glands about the neck enlarge. This false membrane produces death by extending into the air passages of the wind-pipe, causing the effects of croup; in other cases the patient dies from exhaustion and fever, caused by the poison of the disease. It is a disease of childhood, the greater portion of its victims, like those of scarlatina, being between 2 and 12 years of age. We will give the whole article next week from which we glean these remarks.

We have already published a receipt for its cure—gargle with salt water, &c., every 15 minutes: Begin as soon as the disease commences.

A gargle with tea made of red oak and persimmon bark, alum and honey, is said to be very good for this disease, keeping a poultice to the throat made of red oak bark tea thickened with meal and tar. Or, here is another prescription practiced by Dr. Miles of Mt. Carmel, Va., with great success, we learn: Take Kreosote 24 drops, Tinc. of Myrrh 1-2 oz., Comp'd Spirits Lavender 1-2 oz., Honey 2 ounces, Water 6 ounces, mix well and gargle often.—*Milton Chronicle.*

---

*Old People.*—We learn from Mr. B. F. Fraley, the census taker in the Southern part of this County, that he found 49 persons over the age of 70 and varying from that up to 99. One negro man, reported as having died within the year, was aged 105. One negro woman was found aged 110 years. She has a good memory—remembers many of the men and scenes of the revolutionary times,—she is cheerful and is yet pretty active and strong. The census taker found her drying fruit. She belongs to Charles Earnhardt.

*Salisbury Watchman.*

---

*Another Cargo.*—The Br. Brig Europa, Francis, from Newport, Eng., arrived here on Saturday afternoon, with 180 tons of Iron for the Wilmington, Charlotte and Rutherford Rail Road.

## FAYETTEVILLE.

**THURSDAY EVENING, NOVEMBER 8, 1860.**

### *Election of Lincoln and Hamlin!*

That event, so dreaded by all true patriots, from WASHINGTON down to the present day—the prevalence of a purely sectional party—is upon us. Abraham Lincoln and Hannibal Hamlin have been elected President and Vice President of the United States.

This is not a moment to indulge in the feelings which crowd upon the mind at such a result. Reason, and not passion, should control nations. And when the smoke shall have cleared away it may be that there will be a good foundation for the following, which is telegraphed from Washington under date of 12 M. yesterday:—

"The friends of the South and the Union congratulate themselves, in consequence of the increased opposition majority in Congress. Lincoln's administration, divested of Legislative power, cannot injure the South, if so disposed."

The following is the result, so far as ascertained:

| | Lincoln. | Bell. | Breckinridge. | Douglas. |
|---|---|---|---|---|
| Connecticut, | 6 | | | |
| Delaware, | | | 3 | |
| Illinois, | 11 | | | |
| Indiana, | 13 | | | |
| Kentucky, | | 12 | | |
| Maine, | 8 | | | |
| Massachusetts, | 13 | | | |
| Michigan, | 6 | | | |
| New Hampshire, | 5 | | | |
| New York, | 35 | | | |
| Ohio, | 23 | | | |
| Pennsylvania, | 27 | | | |
| Rhode Island, | 4 | | | |
| Vermont, | 5 | | | |
| Virginia, | | 15 | | |
| | 156 | 27 | 3 | |

152 is a majority of the whole electoral vote.

The particulars are summed up thus:—

ALABAMA.—Mobile City and County gives Douglas a majority of 219 over Bell, and 320 over Breckinridge.

CONNECTICUT.—Lincoln's majority is thousands.

DELAWARE.—Breckinridge carries this State by 1500.

ILLINOIS.—Lincoln's majority stated at 15,000.

IOWA.—Strongly Republican, supposed, but no returns.

INDIANA.—Lincoln's plurality estimated at 25,000.

KENTUCKY.—A dispatch from Louisville says that the Bell and Douglas men give the State to Bell by 15,000 majority.

LOUISIANA.—New Orleans, Bell 5,500, Douglas 2,998, Breckinridge 2,645. With this single return the State is claimed for Breckinridge; but we think the claim premature.

MAINE.—Lincoln's majority stated at 25,000.

MASSACHUSETTS.—Lincoln's plurality is set down at 70,000. All Republicans elected to Congress except Burlingame, who is beaten by Appleton, National Whig. A gain of one.

MARYLAND.—The vote in Baltimore was for Breckinridge 14,850, Bell 12,619, Douglas 1562, Lincoln 1082. The unexpected plurality for Breckinridge induced that party to claim the State by 2000. But later accounts show a Bell gain of 1100 in Alleghany county, which makes the State doubtful.

MISSOURI.—St. Louis City—Lincoln 10,000; Douglas 8,200; Bell 4,200. Scattering returns from the interior indicate that the State has gone for Douglas.

MICHIGAN.—Lincoln's majority supposed 25,000. Four Republicans elected to Congress; Republican gain of one.

MINNESOTA.—Strongly Republican, but no particulars given.

NEW YORK.—The city, except 6 precincts, gave the Union ticket 60,078, Lincoln 31,884. But Lincoln's majority in the State is put down at 50,000. Six Union men elected to Congress from the city. At present there are but four from the whole State.

NEW JERSEY—Scarcely any thing heard, but that little favorable to Lincoln.

NEW HAMPSHIRE.—Lincoln's majority not stated.

NORTH CAROLINA.—We give all the returns at hand up to our going to press. Whilst they show a gain for Bell, it is not probable that Ellis's majority in August has been overcome. It will be seen that the vote has been small, owing to bad weather, and, astonishing to relate, to APATHY. It is remarkable that out of a number of North Carolina papers received this morning, not one has the entire vote of its own county. Our returns are nearly all from private letters.

PENNSYLVANIA.—Lincoln gained largely over the late election for Governor, and carried the State by from 35,000 to 50,000.

OHIO.—Lincoln's maj. between 30,000 and 40,000.

RHODE ISLAND.—Lincoln 12,078, Douglas 7,675.

TENNESSEE—Is said to have 'probably gone for Bell.'

VIRGINIA.—There appears to be no doubt that this State has gone for Bell and Everett. The Petersburg Express says, that the returns received show immense Opposition gains over the gubernatorial election of 1859, when Gov. Letcher triumphed over Goggin, Opposition, by a majority of only 5,329. In 17 counties and towns, from which full returns are received, Bell gains, net, 4,025. At Washington city it is given up that Virginia has gone for Bell by a large plurality.

VERMONT.—Lincoln's maj. from 25,000 to 30,000.

WISCONSIN.—Lincoln's majority 10,000.

No news whatever from Arkansas, California, Florida, Georgia, South Carolina, Mississippi, Oregon, or Texas.

SOUTH CAROLINA.—The Legislature met at Columbia on Monday. Hon. W. D. Porter was chosen President of the Senate, and James Simons Speaker of the House.

At the Legislative caucus on Monday evening, held to agree upon the electoral ticket, chosen on Tuesday, it is said to have been demonstrated that a large majority favor immediate separate State action in case of Lincoln's election. U. S. Senator Chesnut and others spoke on Monday evening; all for resistance.

---

U. S. ARSENALS.—It is stated in the Washington correspondence of the N. Y. Times of the 6th inst. that "at the special request of a number of prominent citizens of Georgia, the United States Arsenal at Augusta, in that State, has been placed in possession of Federal troops; and the Arsenal at Fayetteville, N. C., is to be occupied by a company of the Second Cavalry, at the request of citizens of that place."

---

SALE OF STOCKS.—Maj. J. H. Cook, auctioneer, sold at auction, on Tuesday last, for cash, 12 shares Bank of Fayetteville stock at $62. Par $50. 3 county Bonds 7 per cent. par $100, at $93.

---

STATE STOCKS.—New York papers of Monday quote North Carolina Bonds at 93, at which price there were sales of $10,000. Virginia 87½. Missouri 76½. Tennessee 88. Kentucky 103½.

---

THE MAN WHO HEARD OF IT.—The Charlotte Democrat winds up a reply to some remarks in the Observer in relation to appointments to State offices with the following question:—

"But who ever heard of a Whig Legislature or Whig Governor appointing a Democrat to a Judgeship."

We answer that Gov. Ellis heard of that very thing when a Whig Legislature elected *him* Judge. Is the Democrat satisfied? Or shall we look after its question again?

---

SUICIDE.—The body of Mr. Daniel McPherson, a respectable citizen, residing about 3 miles from this town, was found in the woods a few hundred yards from his house on Monday morning last, with his throat cut and a razor lying near. There appears to be no doubt, as the Coroner's inquest ascertained, that he had committed suicide. He was a single man, of perhaps 50 years of age, in comfortable and even opulent circumstances, of a gloomy habit of mind; and on Sunday morning had sat down to breakfast, but ate nothing; rose and walked out, without exciting any particular attention, and was not seen again till his body was found the next day.

☞ A communication from Alfordsville, Robeson County, intended for publication in the last Observer, did not reach us until after the election.

---

THANKSGIVING.—Gov. Ellis has issued his proclamation, setting apart Thursday, the 29th day of November, as a day of Thanksgiving and Prayer.

---

DAVIDSON COLLEGE.—The Senior Editor of the N. C. Presbyterian writes from Davidson College, that the railroad from Charlotte to Statesville, now in process of construction, will pass within sight of the College, which is equi-distant from the two termini.

"The number of students in attendance this session is 80. There are accommodations for double this number. The new Building alone has comfortable rooms for 130. Eight of the 10 members of the Senior Class are professors of religion. Nearly one half of the other students are also christian professors, and for over two years they have kept up, of their own accord, and conducted among themselves, a daily prayer-meeting. In addition to this, there is a weekly prayer-meeting of the students, which is conducted by the Professors in turn. The discipline of the College is admirable and the standard of instruction is remarkably high.

"Prof. Barringer entered upon his duties about a month ago, and has already inspired his classes with a high degree of enthusiasm in the studies pertaining to his department. After the expiration of his term of service in the Senate next February, he will withdraw from the legal profession, and devote himself exclusively to the labors of his new and highly important office."

---

Total receipts of Cotton, 659,597 bales, against 774,884 last year. Decrease 115,287.

---

*Large Mast.*—We learn that the mast this fall is unusually abundant. Hogs are *picking up* finely in the woods, and so the corn crop will, to that extent, be saved. We do not suppose, however, that this will reduce the price of pork materially and buyers in this section may expect to pay about $8 per hundred.—*Raleigh Standard.*

*Telegraph.*—The Telegraph line from Charlotte to Columbia is now completed.

## A HOME SPIRIT.

The remark is often made that North Carolina is a good State to move from; and it is likewise a fact attested by every day history, that North Carolina is the birthplace of many, very many, of the most trustworthy and laborious men of the Union. Why it is that so few who remain in the State reach a national distinction or even a respectable home distinction, whereas there are so many who reach this distinction in other States, who still claim North Carolina as their nativity, is a question of very grave interest to us. There must of necessity be a cause. We do not witness a similar conditon of affairs in any other State, and the cause, therefore, must be peculiar to our own; and if the cause be removed, we are assured the state of affairs will change.

Naturally, North Carolina is not inferior to any of the States. Her position is favorable to success in whatever tends to make a State prosperous, influential, and wealthy. Her soil is rich; her climate is varied, suiting to health and the production of fine crops of every staple product. When one of the only thirteen States she led in public spirit, she stood equal in influence. And if to-day she be inferior to any State in any point, the blame rests upon her people, and not upon any natural inferiority.

That as a state of wealth and influence North Carolina is inferior to some of her sisters, is patent to every observant mind; and our object in writing this article is to investigate the cause and, if possible, to suggest the remedy. And we submit as the most potent cause, the almost total want of a proper home spirit. Instead of each man and each community striving to do all within his power to build up his neighbor, and to create a universal wealth, the opposite spirit seems to prevail, showing something that looks very much like jealousy—a spirit which says, "I fear my neighbor will become more wealthy and influential than myself." Hence every home enterprise is neglected and our supplies are ordered from abroad. Thus enterprising men are driven abroad in self defence, and our State becomes the loser. The home spirit is wrong, and it must be changed, or there is no remedy.

Now how shall we change this spirit, so suicidal in its policy? There is one association in the State, which, if properly managed, will speedily work a revolution. We allude to the State Educational Association. Revolutions in society are slow. It is necessary for all prejudices and habits to die out, and new ideas and feelings to be inculcated in the education of the youth. Why is the story of the Boston Tea-Party, an act performed in disguise, celebrated, while perhaps not half the citizens of North Carolina have any idea of a transaction at Wilmington, in this State, more daring than the Boston act, and, like the ever characteristic independence and honesty of North Carolina, performed in open day and without disguise. Why is the battle of Lexington on the lips of every boy in the Union, and perhaps not one in a thousand ever heard of the battle of Alamance? These transactions at Boston, at Lexington and at Bunker Hill, have become a part of the common education of every child in the Union; their earliest reading lessons, when perhaps there is more spelling than reading, are of these great and patriotic events. The same is followed up in the School Geographies; in the Speakers, from which the school boy learns his declamations; so that the youth's mind is ever on something that took place somewhere from home, by distant actors.

The State Educational Association has appointed a committee to examine the text books used in our schools, looking to the introduction of uniformity in our text books. Let this committee also look into the character of these text books, their suitableness not only in training the mind, but also in developing a good spirit of state pride and patriotism. We are glad to know that a very great change has taken place in our State within a few years past, but we hope it is but the beginning of what is to follow.

The General Superintendent of Common Schools has had published a North Carolina edition of Mitchell's Geography, in which the State receives special attention; he has also had published a series of North Carolina Readers, which to some extent cover the points we have mentioned above. In the third reader, especially, are brought out points of history, are given sketches of native scenery, and are furnished, also, specimens of native oratory for declamation. Let this initiatory step be followed up. Introduce into our primers, our spellers, our readers, and into all text books admissible, sketches of the State's early history, of her patriotic and leading men, of her scenery and natural wealth, with their appropriate pictorial illustrations, which often speak louder to the child's mind, than any language which can be used.

These are the preliminary steps to be taken—steps which will in time inevitably work a revolution. But there is no necessity for waiting this slow process. Why may we not as a people awake at once from our slumbering, suicidal policy, and each strive to act well and truly his part? Be not picayuneish and narrow minded. Each produce as many of his wants as he can within himself, and procure every other necessary want from some one within the State. Even if he pay a small per cent. more for it, remember the money does not leave the State, and will, some day, return to him. Besides, this extra per cent. will not long be necessary: for so soon as the trade of the State is concentrated at home, facilities will increase, manufactures multiply, and the demand will be supplied.

Let the State, then, encourage her own schools and school books, her own manufactures, her own men in whatever walk of life or business pursuit, and our youths will no longer be under the necessity of looking for new homes in a new country, nor our business men of seeking other localities of trade for the want of proper encouragement at home.—*Greensboro' Times.*

*Counterfeiting by Wholesale.*—A very extensive counterfeiting operation has been brought to light at Lebanon, Ind., in which the cashier and several others connected with the Boone County Bank, in that place, are concerned. It is supposed that they have circulated from $300,000 to $500,000 in counterfeit bills on that institution. The spurious and the genuine notes are from the same plate, with the names of the Auditor and Register forged on the former. The President of the Bank has fled, from which circumstance, it is inferred that he is deeply implicated in the transactions.

*The Vermont State Treasurer a Defaulter to a Large Amount.*—Hon. H. M. Bates, late State Treasurer, is ascertained to be a defaulter to the State to a large amount. Bates absconded on Saturday, and has probably fled to Canada. The amount of his defalcation, as far as ascertained, is $42,000, and it is expected that further disclosures will increase the amount.

---

*South Carolina and the Emperor Napoleon.*—The New York Courrier des Etats Unis, whose information in reference to French affairs is considered good, seriously asserts that the proposition has been made by the disunionists of South Carolina to the Emperor Napoleon to place the port of Charleston under French protection in the event of the State seceding from the Union. Here is the Courrier's story:

"Preparatory overtures have really been made to the French government to know whether, the case occurring, it would consent to take under its ægis the commercial neutrality of any point on the Southern coast of the United States. The answer was that questions of this sort can only be solved in presence of accomplished facts, owing to the diversity of aspect which such questions assume according to circumstances. Therefore no encouragement of any sort has been given, nor has any hope been authorized to any degree whatever. Nevertheless, the persons charged with the negotiation appear to have gained the impression that if a government regularly organized at the South, after having given evidence of an independent existence, should proclaim one of its ports free, it would have the chance of obtaining the guaranty of the French flag for the neutrality of the point thus delivered to the commerce of the world. Hence the idea of inaugurating the disunion movement by the erection of Charleston as a free port."

*A Monster Press.*—The Scientific American thus describes a monster steam press, upon which Moses S. Beach, who has just retired from the New York Sun, is at work: "He is even now just completing the construction of a monster steam printing press, by which the sheets are cut from rolls, dampened, printed on both sides, at the rate of 40,000 impressions an hour, folded up, counted and delivered from the machine, ready for the carrier and the mail. The machine is as high as a common two story dwelling house; and it will, when finished—if the expectations of its inventor are realized—constitute a most extraordinary specimen of mechanical skill and ingenuity."

---

*Wealth of Georgia.*—We learn from the Annual Report of the Comptroller-General, for the year 1860, that the total amount of property returned on the tax digest for the year amounts to the immense sum of $672,322,777. According to the census of 1850, there was a fraction over 521,000 free white inhabitants; and it is a reasonable calculation that the increase in ten years will swell that number to at least 550,000. These figures will show the fact, that if the taxable property in the State was equally divided among the people, the amount for each free white man, woman and child, would be within a fraction of $1223.

---

*Mortality Statistics.*—De Bow's mortality statistics, compiled from the last census, show that the people of the United States are the healthiest on the globe. The deaths are 320,000 per year, or one and a half per cent. of the population. In England the ratio is nearly two per cent. Virginia and North Carolina are the healthiest of the States, and have 638 inhabitants over one hundred years.

---

The Census of Vermont, it is stated, will show a decrease since 1850 of about four or five thousand. This is, we believe, the first instance in the history of the country where the population of a State has receded in the course of ten years.

---

*Cure for Burns.*—The "Gazette Medical" of France says that, by an accident, charcoal has been discovered to be a cure for burns. By laying a piece of cold charcoal upon a burn, the pain subsides immediately. By leaving the charcoal on one hour, the wound is healed, as has been demonstrated on several occasions. The remedy is cheap and simple, and certainly deserves a trial.

---

*Blondin at Troy—He gets a Fall.*—The daring rope walker has been performing at the theatre in Troy, and on Tuesday evening met with an accident. The Times of that city says: "The same or similar mishaps at the Falls would have landed him in the seething waters below the cataract, and the little Frenchman would have been heard of no more on this side of eternity. While performing on stilts he attempted to turn a summersault, but the crotch that sustained the rope suddenly gave way, and he fell amongst the seats and people below. He was considerably hurt by the fall, and one of his arms appeared to be partially paralyzed by contact with the hard substance on the back of a seat. After picking himself up and repairing damages, he essayed the feat with more success; but in making a subsequent turn over, without stilts or balancing pole, he again lost his balance and came near falling. His whole performance was very thrilling and was witnessed with anxiety for his safety by the audience. We think much of his ill success was owing to the imperfect manner in which the rope was adjusted. The "professor" will doubtless guard against such mishaps hereafter.

*"Axing for Her."*—Colonel Dick Nash tells a rich story about "axing for her," in his earlier days. He was deeply smitten with the daughter of a wealthy old skinflint residing in Alabama.

The Colonel, self-confident of success, arrayed himself in his best suit, and proceeded to call on the "patient," for the purpose of obtaining his consent to the consummation he devoutly wished. Matters had all along gone on smoothly. Colonel Nash had every ground to hope for success. Finally a convenient season arrived for him to approach the old 'un. Says the Colonel:

"Squire, my business to-day is to ask for your daughter's hand."

"It is, is it? What! you marry my gal? Look here young man, leave my premises instanter, and if you ever set foot here again, I'll make my niggers skin you. Marry my daughter indeed! You—"

The Colonel had left. He saw that the old gentleman was angry. After getting off to a safe place, he thought he would turn and take a last fond look at the home of his lost idol—when he spied the old man busy, with spade in hand, shoveling up his tracks from the yard and throwing them over the fence! Colonel Nash imagined he was an unwelcome visitor at that house.

---

As a woman was walking, a man looked at and followed her. "Why," said she, "do you follow me?" "Because I have fallen in love with you." "Why so? My sister, who is coming after, is much handsomer than I am; go and make love to her." The man turned back, and saw a woman with an ugly face, and being greatly displeased, turned and said, "Why did you tell me a story?" The woman answered, "Neither did you tell me the truth. If you are in love with me, why did you look for another woman?"

It is feared that many articles, worthy of Premiums, have been overlooked by the Committees, in consequence of the crowded condition of Floral Hall, and the limited time given to the Judges (which was altogether too short,) to examine so great a number of articles. But we hope the Society will be able to afford better accommodations, and deal even-handed justice to all competitors for Premiums at our next Fair, as it will be continued three days, and it is expected by that time, a new Fair ground and all necessary buildings will be completed

The Moore County Agricultural Society have appointed the first Thursday, Friday and Saturday of November in each and every year, as the time for holding their annual Fair.

Nov. 5, 1860. S. C. BARRETT, Sec'y.

JUDGE MANLY'S MEMOIR OF JUDGE GASTON.—We have read with pleasure the above article in the last No. of the University Magazine. It is from one who knew Judge Gaston long and well, and closes with a tribute of love and veneration from one who was still nearer to "the great Judge and good man"—evidently from the felicitous pen of one of his accomplished daughters.

We copy a few paragraphs:—

"Mr. Gaston was elected to Congress in 1813, and reelected in 1815. Of the brilliancy of his career while in Washington, we may form a just estimate from the reply of Daniel Webster to a member of Congress from Ohio, who once asked: "Who was the greatest, of the great men, of the War Congress?" Mr. Webster replied: "The *greatest* man was William Gaston," adding, with a smile: "I myself came in along after him." With equal magnanimity did Mr. Clay acknowledge in conversation at Raleigh: "I once differed with Gaston, but found out afterwards that Gaston was *right.*" The speeches on the "Loan Bill" and the "Previous Question," are models of Parliamentary debate."

[We have heard that Judge Gaston's great speech on the "Previous Question," (in which he and the Federal party of which he was the acknowledged leader gained a decided triumph over Mr. Clay and the Republican party,) was reported by Mr. Webster, to whom Mr. Gaston repeated it in his room for that purpose, at the earnest request of Mr. W. In connection with this incident an anecdote has been related which we will not repeat because its authenticity has been denied.]

"The following description of Mr. Gaston's oratory is from the pen of one who often felt the enchantment of his eloquence: "It was as an advocate that Judge Gaston was most illustrious. The forum was an arena in which he trod the undisputed victor. There, all the excelling qualities of his mind and heart were called into play. As a criminal advocate he long enjoyed unrivalled reputation in North Carolina His was not a cold and mercenary advocacy. Such was the warmth of his sympathy, that from the moment he heard the story of the wrongs or misfortunes of his client, he became his zealous friend. He threw himself, heart and soul, into the defence, and made it his own personal cause No fury of popular prejudice, or apology, could bend his unwavering devotion, or frighten him from the courageous defence of injured innocence, as he himself firmly believed it. All that zeal could accomplish, aided by every weapon which untiring industry could gather from the stores of boundless learning, by the acutest subtlety of perception, and the most insinuating and pathetic eloquence, he did. Who that has ever seen does not freshly remember? Who can forget that noble form, as he rose to address the jury in some case of life or death; the head slightly declined, the calm grey eye, the expansive jutting brow, overshaded with thought; the embarrassed beginning, hesitating, pausing, stumbling along; the words falling singly slow, like drops of rain before the storm, but kindling an unaccountable interest and curiosity; but now the manner becomes more animated, words come like disciplined troops, obedient to the will, and arrange themselves in their positions, each so apt and expressive; and now and then one concentrating such a world of thought it seems to fly to and bury itself in your heart. Those deep grey eyes, now luminous with the fire of thought, look on you, and you behold, in their bright mysterious depths, unutterable thoughts, of which the words which now fall like snowflakes are but the dim echoes. The earnest, emphatic gesture seems but the action of the thought. Those deep deliberate tones are earnest indeed. You feel it is no holiday show, no spouting rhetorician you are seeing, but a man deeply moved, earnestly thinking. The thought that consoles the orator is effused into your soul. You sit enchained, entranced; time, space, visible realities are forgotten. The thought that fills you, alone is real; you live but in the thought which you breathe in, like some maddening gas, and yield yourself, subdued and willing, to the power of a spirit mightier than your own."

"Mr. Gaston's devotion to North Carolina was such, as to preclude his acceptance of emolument and fame elsewhere. "Providence has placed me here, and 'tis my duty as well as pleasure, to do what I can for my native state," was the answer he ever gave to all solicitations for removal. He declined to exchange his seat on the Supreme Bench of North Carolina for one in the Senate of the United States. In a letter to one of his daughters he says: "The resources of our State lie buried and unknown; when developed, as they must be ere long, she will be raised to a consequence not generally anticipated. I shall, in the course of things, not live to see this happy result; but having struggled for her so long, so earnestly, and with heretofore so little good fortune, I am cheered with the prospect of better days to come for those who may follow me." Chief Justice Marshall was repeatedly heard to say that he would cheerfully resign his seat, if, by so doing, he could secure the appointment of Judge Gaston in his stead."

"On the morning of the 23d of January 1844 Judge Gaston attended court at Raleigh in his usual health, and was in the active discharge of his duties when he was suddenly stricken down by apoplexy. By timely and skilful application of remedies, he revived, and was engaged in cheerful conversation with the friends who surrounded him, till within five minutes of his death. He was relating the particulars of a convivial party, at Washington, many years before, and was speaking of one who, on that occasion, had avowed himself a free-thinker in religion: "From that day," said Judge Gaston, "I always looked on that man with distrust. I do not say that a freethinker *may* not scorn to do a mean action, but I *dare not* trust him. A belief in an overruling Divinity who shapes our ends, whose eye is upon us, and who will reward us according to our deeds, is necessary. We must believe and feel, that there is a God all-wise and," raising himself and seeming to swell with the thought, "Almighty." Such were the last words of William Gaston."

*The Late General Clarke.*—Lieut. Gen. Scott, in announcing to the Army the death of Brigadier General Newman S. Clarke, colonel of the 6th infantry, who died on the 7th ultimo at San Francisco, while exercising the important command of the department of California, says:

"Gen. Clarke entered the army, as an ensign of the 11th infantry, March 14, 1812, and served with distinction during the second war with Great Britain. He performed the duties of brigade major in the campaign of 1814; and for his gallantry and good conduct in the battle of Niagara he received the rank of captain by brevet. Continuing in the army after the peace, his subsequent services have been always meritorious and in war distinguished. During the campaign from Vera Cruz to the Capital of Mexico he commanded a brigade, which, led by him, performed gallant and effective service in the work of the campaign. Breveted a brigadier general for his services in Mexico, Gen. Clark has been employed upon high duties, and while commanding our whole Pacific coast, by his ability and good judgment, he concerted a plan of campaign against combined tribes of Indians in Oregon and Washington Territory, which, happily executed under his instructions, promptly reduced the enemy to submission."

*What Protection Shall we Have?*—It is conceded that Lincoln is elected. It is a question of importance now, "What has the South for protection?" Let us see.

1. The Supreme Court of the United States.
2. We should still have the United States Senate; and
3. We shall have the United States House of Representatives.

No bill could come before the Executive for his signature that had not received the sanction of both houses of Congress. No appointment could be made by him without the sanction of the United States Senate.

But let us suppose that he attempts to do unlawful things, that he attempts to violate the rights of a portion of the people or States of the Union, or to transcend in any respect the authority vested in him by the Constitution and laws. What is the remedy? Impeachment by the House, and trial and punishment by the Senate if found guilty. Having both branches of Congress on the side of the South and the Constitution, can any man doubt that they would perform their duty? We should thus have three distinct ramparts against aggression between us and the President. Such a course would be at once dignified, constitutional, safe, and would raise us up hosts of friends everywhere. The sympathies of all conservative men of all classes would be on our side, and with such a basis of moral and political power, and a cordial union North and South, against sectionalism, can any reasonable man doubt that at the next election the Republican sectionalists would be routed, horse, foot and dragoons?

*The Territorial "Question."*—"Ion," the Washington correspondent of the Baltimore "Sun," intimates that the precise phase of the "Territorial question" which was contemplated in the Kansas-Nebraska bill, and which by that measure was referred to the decision of the Supreme Court, has arisen in such a manner as to make a case for adjudication by that tribunal. We are not apprized of the facts constituting the case indicated, but give the statement on the authority above designated:—

From the Correspondence of the Baltimore Sun.

It has been asked whether the United States Supreme Court will not adjudicate the pending Territorial question; that is, the right of the Territorial Legislature to exclude slavery. In the Dred Scott case the Chief Justice gave his opinion to the effect that the Territory, as a creature of Congress, could not do what Congress could not do; but a case has arisen which will bring that particular question directly before the Court for decision. It will involve the distinct question of the right of a Territory to exclude or abolish slavery. Should the Court decide that the Territory cannot exercise this power in a particular case the Territorial authorities must be bound by it; and if in any case the processes of the Court should be resisted, the United States marshal must be supported to any extent by the Executive of the United States. The case which I refer to is to come from Kansas. The Territorial question may perhaps thus be settled by the admission of Kansas and by the expected decision of the Supreme Court.

### Trustee's Sale of Valuable Property.

BY virtue of a Deed in Trust executed to the subscriber by Thos. J. Curtis, Esq., for the purposes therein specified, that

**Valuable Tract of Land,**

known as the Mumford Swamp, situated within the limits of the Town of Fayetteville, and containing 110 Acres, will be offered for sale at the Market House, on Wednesday Dec. 5th, 1860.

The tract has recently been surveyed, and laid off in lots of from 5 to 12 acres each; with a street running through from Winslow to Gillespie street, near the centre of the tract, so that every lot will have a street front. The whole or any part will be sold at private sale, by application to the subscriber at his office, where a plot of the lands may be seen. It is the best farming land in the County or in the State, as every one knows who has seen the heavy crops of Hay made on it during the last 10 or 12 years.

Mr. Curtis has a plot of the land, and will take pleasure in showing it to any one wishing to examine it.

*Foreign News.*—The Royal Mail steamship Persia arrived at this port last night at midnight, and we are thus enabled to place before our readers further details of her advices than were telegraphed from Cape Race. In the city of Naples, 154,000 votes were cast for annexation, and in Palermo there were 36,232 votes in favor of annexation, and only 20 against. The King of Sardinia had made a highly important speech in reply to the address of the Neapolitan Delegation, in which he said, in reply to the threats of Austria, that he should be ready for her next Spring, when he should have 400,000 men-at-arms. The Pope himself now, he says, writes to him with kindness, and, although the Powers of Europe are displeased, none but Austria threatens. He is satisfied, he says, with Garibaldi. Italy has no nobler spirit or son. The British Legion had been under fire at Capua for the first time, and had conducted themselves with the utmost bravery. They had been specially thanked by Garibaldi. It was stated in the Opinione Nationale that Austria had proposed to enter upon negotiations with France to bring about a pacific solution of the Italian question. No new movements of a military character had taken place in Italy.—*N. Y. Times, 8th inst.*

*Later from New Mexico.*—The New Mexican mails, with dates to the 22d ult., have arrived. Colonel Canby had an engagement with the Navajoe Indians on the 2d ult. Forty horses and five hundred sheep were captured, and five prisoners and six Indians killed.

The Utahs, under Capt. Pfeiffer, captured five thousand sheep and a large number of horses, with nineteen prisoners and five scalps. Captain Buckman's party of volunteers took seventy horses and one scalp. The Indians are sorely pressed on all sides, and if they are ever to be chastised, now or never is the time. The Utahs had proved treacherous; after receiving a large number of horses they put out with them, declining to have any more to do with the campaign. By their treachery the Indians recovered 3000 of the sheep that were taken from them. The command of Captain Pfeiffer was put in imminent danger, but after a hard battle they escaped.

*Fires.*—A fire in Anderson district, S. C., has destroyed the Williamston Springs Hotel, valued at $60,000. B. F. Marsden's store and goods to the amount of $10,000 were consumed.

A fire in Fort Gaines, Ga., on Wednesday, consumed the Agency of the Bank of Columbus, together with several stores and dwellings. Loss $40,000 to $50,000. It was the act of an incendiary.

Wood's mowing machine factory, at Hoosick Falls, N. Y., on Tuesday, was burnt with other buildings. Loss $200,000. Three hundred hands are thrown out of employment.

The entire Neil House was consumed in Columbus, Ohio, on Monday. The total loss is $200,000 to $300,000.

*Another Steam-boiler Explosion.—Five Persons Killed.*—The Western Transportation Company's propeller Mohawk exploded her boiler on Monday while crossing St. Clair Flats, Michigan. Five persons—the second engineer, three firemen and one deck-hand—were instantly killed.

*Defalcation in Chicago, Ill.*—The Chicago (Ill.) Tribune says that a railroad official has recently left that city in haste, and that an examination of his accounts with the company exhibits a deficit of $17,000 to $20,000. He was what is called a "fast" young man.

*Arrest of a Postmaster.*—D. W. Moore, special agent of the Post Office Department, on Saturday last arrested John A. McConnell, assistant Postmaster at Newry, Blair county, Pa., on the charge of robbing the mail.

*Census of Minnesota.*—The following is the summing up of the marshal of the census of Minnesota: Total population 176,535; number of farms, 19,095; number of manufacturing establishments, 563; number of deaths, 1,205. The total area of Minnesota is estimated at 81,259 square miles, so that the population of Minnesota on the 1st of June, 1860, was a little over two persons to the square mile.

*The Next Congress.*—Parties in the next Congress, as shown by the recent elections, will stand as follows: In the House the opposition to Lincoln will be 127—Lincolnites 110—Opposition majority 17. In the Senate the Opposition majority will be 8. Lincoln will therefore be powerless.

*Mr. Breckinridge a Submissionist.*—The Kentucky Yeoman, Mr. Breckinridge's home organ, seeing that the silence of its chief on the questions proposed to Douglas at Norfolk was about to damage him, refers to it, and says that any school-boy would know that if Mr. Lincoln is eligible to the office, and is elected by the forms of the Constitution and the laws, that he will be inaugurated, and treats any other supposition with the most supreme contempt and ridicule.

*Next Commencement.*—The Rev. John A. Broadus, of the Southern Baptist Theological Seminary, located in Greenville, S. C., has promised to deliver the Baccalaureate Sermon before the graduating class of the University of North Carolina at the next commencement, in June 1861.—*Hillsboro' Plaindealer.*

*Wilmington and Weldon Rail Road.*—At the annual meeting of the Stockholders yesterday, Hon. Wm. S. Ashe was re-elected President. The following gentlemen were re-elected Directors on the part of individual Stockholders: P. K. Dickinson, A. J. DeRosset, J. D. Bellamy, E. P. Hall, Gilbert Potter, W. C. Bettencourt and W. W. Pierce. Wm. A. Wright, L. H. B. Whitaker and Wm. K. Lane, were re-appointed on the part of the State.—*Wilmington Journal.*

*Sampson County Agricultural Society.*—Col. Walter L. Steele, of Richmond County, has consented to deliver the address before the next Annual Meeting of Sampson County Agricultural Society.

*Great Corn.*—A friend at South Creek writes us on the 1st inst., that on Monday, the 29th ult., Messrs. C. Tripp and B. Bonner, in the presence of Messrs. Jno. M. Weston and J. Hudnell, proceeded to lay off ¼ of an acre of the land which they had in corn, gathered and then shelled and measured it. The result was equal to 104 bushels per acre, being nearly 25 barrels. We are not informed whether the land was manured or not. Any way, it beats any corn land we have heard of in these parts.

*Western (N. C.) Democrat.*

*Sale of Negroes.*—Thirty two negroes were sold at Athens, Tenn, at public sale, on Friday before the last for the aggregate sum of $27,101.

### THE DISUNION MOVEMENTS.

*Most Remarkable Spectacle.—Lincoln's E tion Enthusiastically Cheered in Charleston C!*—The Charleston Mercury says that the news of Lincoln's election was received in that city with long-continued cheering for the Southern Confederacy!

At Charleston on Wednesday morning the Grand Jury of the U. S. District Court declined to make any other presentments, and Judge Magrath made a speech, and retired from the U. S. Bench.

CHARLESTON, S. C., Nov. 8.—James Conner, Esq., U. S. District Attorney has resigned his post.

Col. James Colcock, Collector of Customs for the port of Charleston, has notified President Buchanan of his resignation.

Charles Jacobs, Esq., Deputy Collector has resigned. All the Federal officers in the State intend to resign on the inauguration of Old Abe.

A large body of citizens called on the resigning federal officers last night, and greeted them with cheering demonstrations. The ex-officials returned thanks in spirited addresses.

*The Palmetto Flag Hoisted.*—The bark James Gray, owned by the Cushings, of Boston, (Newburyport?) lying at our wharves under instructions from her owners hoisted the Palmetto Flag to-day and fired a salute of 15 guns!

COLUMBIA, Nov. 8.—The Speaker of the House last night received a dispatch from Virginia tendering the services of a volunteer corps in the event of South Carolina seceding from the Union.

Efforts were made yesterday in the Legislature to procure a delay of action in view of the co-operation of other Southern States, but they failed. A Convention will be called and secession is certain. The election of delegates will probably be ordered for the 4th December, and the Convention will meet on the 17th.

SAVANNAH, GA., Nov. 8.—An immense mass meeting was held here to-night. Confessedly the largest ever assembled in Savannah.

Eloquent and patriotic speeches were made, the speakers being repeatedly interrupted by the most tumultuous and enthusiastic applause.

Resolutions were unanimously adopted to the following effect:

That the election of Abe Lincoln ought to be and will not be submitted to.

The Legislature is respectfully asked to announce the above opinion.

To communicate the same to the Georgia Senators and Representatives in Congress.

To co-operate with the Governor in calling a Convention of the people to determine the mode and manner of redress.

To recommend to the Legislature that immediate steps be taken to organize an armed force in the State.

An immense multitude assembled at Johnson Square this afternoon, where the Colonial Flag was raised upon the beautiful monument to Greene. The flag was greeted with loud, prolonged and enthusiastic applause.

The excitement is intense. A large number of Minute Men have been enrolled, and the work is progressing with great rapidity.

AUGUSTA, GA., Nov. 9.—A large meeting has been held, and a corps of minute men raised.

The Governor of Georgia has sent a special message to the Legislature, recommending all sorts of retaliatory legislation against Black Republican States. He thinks the Union may thus be saved. He concludes:—

"For the purpose of putting the State in a defence position as soon as possible and preparing for the contingency, which must be met sooner or later, I recommend that the sum of $1,000,000 be immediately appropriated as a military fund for the ensuing year, and that prompt provision be made for raising such a portion of the money as may now be in the Treasury, as fast as the public expenditures require it. 'Millions for defence but not one cent for tribute,' should be the future motto of every Southern State. To every demand for a further compromise of our rights we should reply, the argument is exhausted and we now stand on our arms."

COLUMBIA, November 7.—A gentleman just arrived here from Montgomery, Ala., reports that Mr. Yancey has given public assurance that Gov. Moore would call a Convention of the people of Alabama within ten days after the election of Lincoln.

NORFOLK, Nov. 8.—Over six hundred Minute men have been enrolled in this city and Portsmouth already. The number will soon reach one thousand.

Ex-Gov. Wise has been elected Commander-in-Chief of a large body of Minute Men in Princess Anne.

NEW ORLEANS, Nov. 8.—Placards are posted about the city, called a convention of those favorable to the organization of a corps of minute men.

The Montgomery Mail publishes a dispatch from Apalachicola, Florida, stating that McQueen McIntosh, Federal Judge of Florida, will not hold office under Lincoln.

WASHINGTON, November 7.

The movements of South Carolina and Ex-Governor Wise, of Virginia, have excited great alarm here. The result of the contest in Kentucky and Virginia is considered adverse to secession.

The Administration feels that it would have to bear the brunt of secession, which is anything but pleasant. The President seems duly impressed with the solemnity of the crisis. He will resist *nullification, but not secession.—Chas. Courier.*

WASHINGTON, Nov. 8th.—The President continues to be privately advised of the condition of affairs in the South.

There has been no formal consideration of the subject in the Cabinet, hence there is no determined course of action.

It is known that there is a difference of opinion among the members of the Cabinet on the distinctive legal question of secession, but this does not, as has been reported, involve the resignation of any of them.

It is not contemplated to send additional troops to the Southern military posts.

There is some talk of funds becoming scarce. But two and a half millions of the new loan have been paid in, but bidders have until the 22d for this purpose.

An Assault was made on Wednesday morning about an hour after midnight, by a number of persons, said to be Breckinridge Democrats, and reported at two hundred or more, on the building known as the Republican headquarters, on Indiana avenue and 2d street, comprising the printing office of Messrs. Buel & Blanchard, and formerly the office of the National Era. Only about six Republicans had remained in the building when the attack was made, and we learn that these had to escape to the roof from the fury of the assailants. Besides shooting pistols and throwing stones from the outside at the windows, which on one floor were all but wholly demolished, the assailants entered, and, after destroying all the paraphernalia of the Wide Awakes they could find, broke up stands and cases of the printing office and scattered the type, causing a damage estimated at $100. Two or three of the party were arrested, and will undergo examination to-day.—*National Intelligencer.*

The State census of Maine shows a population of 645,137, which is an increase of 61,868 over that of 1850.

# OBSERVER.
## FAYETTEVILLE.
MONDAY EVENING, NOVEMBER 12, 1860.

THE ELECTION.—We have not much to add to the particulars given in Thursday's Observer. Nothing, unfortunately, to change the disastrous result. Nothing to atone for the evil of a purely sectional triumph. Every free State except New Jersey has sided in that triumph, (unless, indeed, California or Oregon should have more patriotism than their fanatical sisters;) and of course every Southern State has endeavored to prevent it, each according to its peculiar view of the best mode of accomplishing the object.

It is certain that Lincoln and Hamlin have received—

| | | | |
|---|---|---|---|
| 6 votes in | Connecticut, | majority about | 10,000 |
| 11 " | Illinois, | " " | 15,000 |
| 13 " | Indiana, | " " | 27,000 |
| 4 " | Iowa, | " " | |
| 8 " | Maine, | " " | 20,000 |
| 13 " | Massachusetts, | " " | 55,000 |
| 6 " | Michigan, | " " | 25,000 |
| 4 " | Minnesota, | " " | 10,000 |
| 5 " | N. Hampshire, | " " | 9,000 |
| 35 " | New York, | " " | 40,000 |
| 23 " | Ohio, | " " | 32,000 |
| 27 " | Pennsylvania, | " " | 50,000 |
| 4 " | Rhode Island, | " " | 4,000 |
| 5 " | Vermont, | " " | 11,000 |
| 5 " | Wisconsin, | " " | 12,000 |

169 votes. 152 is a majority of the whole.

The fusion ticket is elected in New Jersey by a majority of about 4,000. This gives Douglas 3 votes, Bell 2, and Breckinridge 2.

Kentucky, 12 votes, and Tennessee, 12 votes, were admitted to have gone for Bell and Everett, but the latest accounts show them to be doubtful. Virginia is also doubtful, as the vote will be close. 110 counties and cities have been heard from, in which Bell gains 4,400, and to carry the State he must gain 900 more in 52 counties and cities.

In Georgia it is probable that no ticket has received a majority, and if neither have a majority the Legislature chooses the Electors. In 79 counties Breckinridge has 35,130, Bell 34,180, Douglas 10,104.

Maryland is put down for Breckinridge by 404 majority, though the official returns may vary this.

Breckinridge has carried North Carolina 10, Delaware 3, New Jersey 2, Maryland 8; and probably Florida 3, Arkansas 4. We would add South Carolina 8, for the Legislature has chosen Electors favorable to that ticket, but we doubt very much whether she will trouble herself to vote at all.

Missouri, 9, is claimed for Douglas; but the returns received appear to us to be too meagre and close to decide whether he or Bell has carried it.

As to Florida, Arkansas and Louisiana, but little has been heard from them, and nothing from California, Oregon and Texas.

Baltimore is the only large Southern City that gave a majority for Breckinridge and Lane.

HOW THE RESULT IS RECEIVED.—Our readers need not now to be told, that our own opinion is, that the mere election to the Presidency of any man, however obnoxious he is, and justly, to one great section of the Union, is not sufficient cause for a dissolution of the Union, or for resistance to the laws or to the inauguration of the new Administration. If the South did not mean to abide by the result, it was bound in honor to refuse to participate in the election. Having done so, and been defeated, it seems to us that it is now the part of wisdom, as well as of common fairness, that the South should wait until the new Administration shall assail its institutions or attempt to violate its rights, before it shall raise the flag of revolution, and dissolve this Union, upon which so many hopes are centered. In our opinion, besides the fact that both Houses of Congress and the Judiciary are against him, and will be a bulwark to the South, another conclusive reason for this course of present forbearance may be found in the confident expectation that *Lincoln cannot be long in office before he will either break up the Union or the party which placed him in power*. And we believe it will be the latter which will be destroyed. No matter what policy may be pursued by him, whether conservative or destructive, he will probably offend one half of his own party.

It gives us great pleasure to find that in a present policy of forbearance and calmness we and our Whig friends generally in this part of the State are sustained by the more considerate and influential of the Democrats. Some of these have so expressed themselves to us personally, and we hear that others have done so to other persons. In this way all parties here will be united when the time comes, if ever it shall come, for resistance.

We are glad to find also that the Raleigh Standard, a paper whose ability and patriotism we have not been slow to acknowledge, whilst we have differed from its party associations and purposes, concurs in this view of the present duty of North Carolinians. That paper of Saturday says,—

"The people of this community received this intelligence of the first geographical triumph which has taken place in this country, with a feeling of mingled sadness and determination. For our part our motto is, Watch and Wait. North Carolina will never permit Mr. Lincoln or his party to touch the institution of domestic slavery. Her people are at least a unit on this point. They may not advise or approve secession, but they will not submit to the slightest indignity or the slightest encroachment at the hands of the black Republican party."

Yes, "WATCH AND WAIT." There are sense and safety in that position.

Again the Standard says,—

"Let every business man stand firm, and do all he can to ward off the effects of the panic. Let as little property be sacrificed as possible. Instead of pressing our debtors, or selling property of any kind to provide the means of living or extravagance, let us economize and live on less than heretofore. Let us especially beware of a panic in slave property. *Slavery in the States is in no danger.* Those persons in the States south of us who are anxious to open the slave trade and import barbarians into this country, would not object to a panic which would reduce the selling price of slaves in Maryland, Virginia, and North Carolina to three or four hundred dollars each."

Finally, the Standard does itself honor by quoting the following extract from a late letter of that able statesman and true North Carolinian, ex Gov. Graham, prefacing the extract with an emphatic approval:—

"We make the following extract from a letter addressed by the Hon. Wm. A. Graham to the Opposition mass meeting recently held in Washington, in this State. We invite attention particularly to those portions of the extract which we have put in *italics:*

"But if it shall please Providence to afflict the country with the election of Lincoln, *while we shall regard it as a calamity deeply to be deplored, and shall increase our vigilance over the rights of our section, and be at any moment prepared to defend them,* it will be our duty to prevent a dissolution of the Union, and the destruction of the Government bequeathed to us by our fathers, for that cause alone. The President of the United States is not a sovereign—we are not his subjects. Our Government is not an elective monarchy, but a representative republic. High as this office may be supposed to exalt the man, he is at last but the servant of the people, and clothed only with powers to do good. *If these powers are perverted to our injury and oppression, resistance will be made with united hearts, and with the hope of success;* but who can prepare a declaration of independence, appealing to a candid world for its approbation and sympathy, upon the ground that we have been out-voted in an election, in which we took the chances of success, and a candidate has been elected whom, however obnoxious, we did not deem unworthy to compete with us for votes? The revolution (for by whatever name the change may be called, this is its effect) should have been made earlier, or must be postponed later. If there has not been sufficient cause for it heretofore, the choice of a President made according to the provisions of the Constitution, is no cause at all. By his fruits he shall be known and tried, not by the hands which implanted him in office. *Let us not injure a cause capable of the best defence, and admitted to be in peril, by taking counsel of passion, not of wisdom.* Let us wait the action of the new President, no matter who he shall be—make resistance to acts if they shall demand it; but let us not prostrate in the dust the fairest fabric of Government ever devised by the wisdom of man, by yielding to the advice of those whose sensibilities outrun their judgments, and still less of those who, there is reason to believe, seek causes for dissolution, rather than dissolution for any cause."

In what admirable contrast is this course of the Standard to that of the Wilmington Journal. The former is identified with North Carolina by every consideration. Of the latter we need not speak further than to quote from the Journal of Wednesday last, the following infamous libel upon "influential parties at the South."

"Criminations and recriminations will do little good. We may all know that this event has been helped on—this movement at the North has been encouraged and invited by the assurances from influential parties at the South that the Northern Sectionalists might elect their Northern sectional abolition President, and said parties would still be their very obedient humble servants."

DIRECT FROM LINCOLN.—The following is from a paper in the confidence of Mr. Lincoln:—

*The News at Mr. Lincoln's Home.*—We have a report from our Special Correspondent at Springfield, Illinois, of the reception of the news of the election and its result by Mr. Lincoln. He seems to have received it with quite as much coolness and complacency as any other citizen. It probably did not take him by surprise half as much as the news of his nomination—but neither seems to have disturbed him in the least, or to have interrupted the usual quiet and even tenor of his way. "Old Abe" is not an excitable man, evidently.

Our Correspondent says that Mr. Lincoln is beset on every side with inquiries as to the policy of his Administration—and that his uniform reply is: "*Have you read my speeches?*" It is pretty clear from this that he has no occasion for making up a new set of opinions for the emergency, and that he intends to make the principles and opinions set forth in his speeches the basis of his administration of the Government. He has no thought of publishing any letter or address on the subject—partly because he has nothing new to say, and partly because he sees nothing in the condition of the country to call for such a step. The public, we do not doubt, will acquiesce in the propriety of this decision.

Speculations as to the composition of his Cabinet can have no value whatever, because, we presume, Mr. Lincoln himself has given no thought to the subject as yet. There are a great many considerations to enter into such a question, and there is no danger of its being decided without mature deliberation.

*New York Times.*

DISUNION MOVEMENTS.—In another part of this paper we have collected in as brief a space as possible, the substance of the many despatches relative to disunion movements. The manifest tendency is to immediate action in many States South of this. Virginia shows no such disposition.

GOV. CONWAY, OF ARKANSAS.—This fire-eating official lately suggested that Great Britain was at the bottom of all our Northern and Southern feud, and that we should proceed at once to whip her, and thus "conquer a peace." The idea has started a "Mr. Samuel A. Cartwright, of Louisiana," who writes to Gov. Conway (and the Gov. prints his letter) that he "has the facts to prove" that the Governor is right. He "has been 20 years collecting those facts." And he winds up with the following remarks:—

"I think we had better go to war with Great Britain than with one another. I think we could stop the slave agitation immediately and live in peace hereafter if we draw the sword or threaten to filibuster in British India, Africa and Australia, unless Great Britain would command her men to let the negro question alone."

Go it, Cartwright and Conway!

We so far think with this Louisianaian, who is ready to beard the lion, that it would be better to go to war with Great Britain than with one another. But perhaps it will be better not to go to war with either.

MISCHIEVOUS FOLLY.—Has it failed to occur to the Raleigh Press that such statements as that in regard to Mr. Hamlin in its Saturday's issue are calculated to do more harm in the South than all the ravings of all the fanatics at the North? If the Press's statement were true, this is not the place to do good by parading it. But we must take it for granted that it is not true, for Mr. Hamlin was for many years an influential Democratic member of the U. S. Senate. We do not think that the Democrats of Maine would have sent to the Senate one of the race to which, according to the Press, Mr. Hamlin belongs; and we know that Southern gentlemen in that body do not make associates of persons of that class. If the Press's statement were true, its own party is more guilty in this matter of a "high handed insult" than the Republicans; for to the Democratic party Mr. Hamlin owes his all, and with Southern Democratic Senators he was closely associated, politically and socially, until very recently when he left that party to join the Republicans. His high position in the Democratic party made him important to the Republicans, first as a convert and then as a candidate.

"A UNITED SOUTH."—This favorite expression of the Southern Democracy, it is very well understood, never meant any thing more than a union upon Democratic candidates. The Georgia Democracy have in that way practically defined it. Responding to an appeal for "a united South," the Douglas and Bell parties proposed to the Breckinridgers a union upon one electoral ticket pledged to give the State's vote to Breckinridge, Douglas or Bell, as might be necessary to defeat Lincoln. The proposition was promptly rejected; and a chairman of a Breckinridge executive committee who favored it was expelled from the committee as unworthy of further association!

A PHILOSOPHER.—The Petersburg Express, in the course of its comments on the election of Lincoln, says,—

"There is no use in crying over spilt milk, nor in smashing a whole basket of eggs because the contents of a rotten one have been pitched into it."

"There is not an evil under the sun so bad that it can not be made worse in its consequences by giving way to fury or phrenzy under its maddening influences."

A QUEER STORY.—Among the items telegraphed from Washington to the New York World on Wednesday last we find the following statement:—

"*Gen. Lane to resign his seat in the Senate to take Clingman's.*—I send you what is now pretty well understood as among the probabilities; it is that Gen. Lane will resign his seat in the Senate, return to North Carolina, and avail himself of a movement, said to be on foot there, to elect him to the seat now occupied by Senator Clingman."

THE SWAMP LANDS.—The N. C. Planter proposes to commence the publication, in its next (December) No., of a series of Essays on the Agriculture of the State, by Professor Emmons. They have been printed for the Legislature by order of the Governor. The November No. of the Planter contains what we suppose is one of these essays, on the Swamp Lands of the Eastern part of the State. Professor Emmons states that he and his Assistants have been engaged for two years past, whenever out-door work was impracticable, in analyzing a great many specimens of the soil from these swamps, with a view to the ascertainment of their qualities for production, and their powers of endurance. And the result is his opinion, that—

"It is highly important that lands so fertile should be brought into cultivation, and we have no doubt that large tracts which are classified under the term, *swamp lands*, are to become the best in the State for the growth of cotton. The great want which is felt is the construction of roads by which these lands may be reached and brought into market. We have no hesitation in saying that the two millions of acres of swamp lands, are worth four millions of upland. In a rough estimate of the kind, we take time and expense of cultivation into account—the time these lands endure without the use of expensive fertilizers, and the ease and slight wear and tear of the instruments used in cultivation, when compared with the same list of expenses required in the cultivation of uplands of the middle counties."

STATE STOCKS.—On the 6th inst., election day, North Carolina bonds sold in New York at 95; Virginia 90 to 92; Tennessee 87½; Missouri 77⅞.

BANK DIVIDEND.—The Bank of Commerce at Newbern has declared a semi-annual dividend of 4 per cent.

THE FAIR.—We hope that our readers have duly observed the various notices from time to time in our columns, of the Agricultural Fair which will be held in this town on Wednesday, Thursday and Friday of this week. We can add nothing to what has been so appropriately said by the excellent and untiring officer of the Society under whose eye all the arrangements are made, and without whose zeal the institution would probably flag, except to express an earnest wish that each successive Fair, for many years to come, may exceed its predecessor in interest and usefulness.

We are requested by Col. Waddill, Proprietor of the Fayetteville Hotel, to state, that the spacious Hall of that building will be open, gratuitously, to the young Gentlemen and Ladies who may be present on the occasion, for Cotillion Parties on Thursday and Friday Evenings.

THE MAILS.—There is an entire failure of the mail north of Baltimore to-day. No New York papers have been received of later date than Thursday, due here on Saturday.

SUPERIOR COURT.—Cumberland Superior Court is in session this week, Judge French presiding. This is the last of the circuit.

FIRE.—The Turpentine Distillery of Maj. Wiley T. Rhodes, in this town, took fire on Friday evening last, and was destroyed, together with the Office building in its immediate vicinity. Loss about $800.

MILITARY.—The guns fired from the U. S. Arsenal in this place on Saturday last were the usual testimony of respect for the memory of a deceased General Officer of the Army—Gen. Clark.

NORTH CAROLINA LEGISLATURE.—The Legislature meets on Monday next. The Session will doubtless be one of unusual interest, and no pains will be spared to keep the readers of the Observer promptly and fully advised of all matters of interest or importance.

### THE DISUNION MOVEMENTS.

The mails this morning bring us but few items from the South, in addition to those in preceding page, as follows:—

CHARLESTON, Nov. 10.—There is great excitement here in consequence of rumors that the Government is about to remove the arms in the Citadel to Fort Moultrie, etc.

Lincoln has been burnt in effigy.

The Palmetto flag has been substituted for the Union flag—[Stars and Stripes.]

The steamer Keystone State was compelled to substitute the Palmetto flag before entering the port.

COLUMBIA, S. C., Nov. 10.—Yesterday was spent by the Legislature in discussing the policy of sending Commissioners to other States. No action.

COLUMBIA, November 7.—A grand display of fireworks, lighting up the whole of Main street, is now going on, with music, cheers from the crowd and eloquent speeches by Messrs. Mullins, Macfarlan, and others in honor of the resignation of the Federal officers in Charleston. The movement has excited much enthusiasm and deep feeling among all classes.

AUGUSTA, GA., Nov. 10.—Meetings are being held all over the State, forming corps of Minute men.

A large body of men here, on yesterday, compelled an avowed Abolitionist named Thayer to leave the City.

The Military State Convention meets at Milledgeville on Tuesday next.

Gov. Brown's message is highly approved of. His propositions meet with a warm response.

The Senate has refused to go into an election for a United States Senator in place of Mr. Iverson, the present incumbent.

*Action of Gov. Pettus, of Mississippi.*—In a speech at Macon, Miss., on the 2d inst., Gov. Pettus said, "That the same wire which conveyed the electric flash that brought the intelligence of Lincoln's election, the next instant should carry back his proclamation convening the Legislature of Mississippi, and he warned them now, if there was any member of the Legislature present, to be prepared to set out for the capital of the State the next minute."

From Washington there are the following items telegraphed:—

WASHINGTON, Nov. 8th.—It was widely rumored this evening that Secretaries Thompson and Cobb had resigned, and it was so announced by one of the papers, but the report is unfounded. They do not contemplate any such action at the present time.

There was a long consultation of the Cabinet to-day on the present state of affairs.

WASHINGTON, Nov. 9.—The Administration does not feel called upon to take action in the present state of affairs at the South; but while enforcing the laws will cautiously avoid any act which might, by any possibility, exasperate the public mind.

Five thousand Minnie muskets were yesterday despatched South, by express, in charge of an ordnance officer—supposed to supply quotas due the Southern States; but their exact destination is unknown.

WASHINGTON, Nov. 10.—It is understood here that the President will take no steps in regard to the South, unless an overt act shall be committed, or nullification attempted.

The Baltimore American says:—

"*The Excitement at the South.*—The telegraph brings strongly worded accounts of the excitement at the South occasioned by the announcement of the election of Mr. Lincoln. These accounts should be received with some degree of caution. People in the midst of an excitement are apt to be led astray by the intensity of their own feelings, and to take for granted many things that disappear beneath the influence of reflection. We do not therefore consider it by any means certain that South Carolina, or any other of the cotton States, will secede because just now no other result is believed to be possible at Charleston. The 17th of December, the time named for the calling of the Convention in South Carolina, is more than a month off, and in that interval cooler counsels will be consulted and less desperate resorts be deemed sufficient for the emergency. The second sober thought will have time to act, and influences that in the hurly-burly of the present moment cannot gain a hearing, be brought to bear with potent power.

"The intelligence, however, shows that the active Disunionists of South Carolina desire to precipitate events so that withdrawal may be impossible, hoping that once out of the Union they can force the South to follow them. In this expectation, we think, they will be disappointed, but the attempt will be made with an earnest purpose to render it successful."

Mr. Bocock, Democratic candidate for Speaker of the present House, and a leading Breckinridge man in Virginia, defined his position a few days ago in a Breckinridge speech. He said:—

"In the event of the election of Lincoln and in the consequent event of the secession of one or more of the Gulf States, it would be the best policy for Virginia to remain in the Union and act as mediator between the General Government and the Seceding States. Virginia, in his opinion, ought not to secede for the election of Lincoln, but should employ all her conservative influence to preserve the Union of the States. He argued that such a policy would likely secure a guaranty from the North to the South of our Constitutional rights and equality."

The New York Herald says:—

"We learn upon authority which we cannot question, that in an interview recently held with Abraham Lincoln by a Southern gentleman, the former explicitly stated the following rule of action if he reached the Presidential chair:—

That whatever his private opinions were, when he took the oath of office, he would recommend no measure which would impair the value or security of slave property in the South.

That he would never recommend the abolition of slavery in the District of Columbia unless the Legislature of Maryland shall request it.

That the sale and transfer of slaves between State and State having been a fixed right under the constitution, he should not interfere with it.

That the rendition of fugitive slaves should be enforced by all the power at his command.

That he should consult in his administration the opinions of the friends of Henry Clay.

These statements come to us in such a shape that we are inclined to believe them, and if so, our Southern friends might as well lower their halberts and stay in the Union, for Lincoln will probably be the most energetic friend they have had in the White House for many a long year.

We should not be surprised, therefore, if the abolitionists found out before long that they have caught a Tartar. And more than this, we learn that in the course of a few weeks there will be an official statement of his views by the President elect, which will allay every possible apprehension.

*Explosion of the Propeller Globe—Many Killed and Wounded.*—The propeller Globe exploded her boiler, at Chicago, on Friday, several persons were killed, and a number injured.

*Fire at the Astor House.*—A fire broke out at the Astor House on Friday, which badly damaged the first and second stories. Loss estimated at $50,000.

*Sentence of a Forger of Election Returns.*—The man Byerly, a Judge of Elections in Philadelphia, who was convicted of substituting forged returns of the election in the First Congressional District of Pennsylvania against the Douglas candidate, Mr. William E. Lehman, has been sentenced to two and a half years' imprisonment and the payment of a fine of $300. The Governor of Pennsylvania has issued a proclamation declaring Mr. Lehman duly elected.

## ODE,
### FOR THE CUMBERLAND FAIR.
WRITTEN BY ONE WHO TAKES A DEEP INTEREST IN THE FAIR.

Hail to the Farmers of Cumberland County!
Lords of the forest, the stream, and the soil,
Filling our homesteads with Heaven's choice bounty,
Earning repose after seasons of toil.
Long may prosperity,
Peace and serenity,
Crown them with honor and free them from care,
While from their ample stores
Plenty the offering pours
Into the halls of the Cumberland Fair.

Hail to our artisans! noble inventors,
Men who have dignified labor with thought,
Our manufacturers, artists and printers,
Witness the wonders their efforts have wrought.
Thus does our honor'd State
Ever on genius wait,
Guarding and fostering talent with care,
And with such works of skill
We should be prompt to fill
All the broad space of our Cumberland Fair.

Hail to the daughters of North Carolina!
Peerless in beauty, in manners refined;
Not like the women of Turkey or China,
Helpless in person, degraded in mind;—
But like a gentle band,
Ever they ready stand,
Our hearts to encourage, our labors to share.
Then with a loud acclaim,
Let us to them proclaim,
Welcome, thrice welcome, to Cumberland Fair!

### House and Lot for Sale.

I OFFER for sale the HOUSE and LOT at present occupied by Mrs. M. D. Evans, situated on Mumford Street, near the Rail Road, adjoining Mrs. M. Banks and others.

The Dwelling contains four large and well ventilated rooms, a passage up stairs and down, two closets and a double portico in front, and is in good repair. The kitchen is nearly new, having been built within the last three years, and contains two large rooms. The smoke-house and store-room are good; the stables need some repairs, also the wood-house. The garden cannot be beaten in point of productiveness in the county.

The above lot will suit a person doing business in Fayetteville, and to all such, or any one else, wishing to purchase a TOWN RESIDENCE, it is respectfully recommended.

☞ If not previously disposed of, the above property will be sold at Auction, at the Market House, on Tuesday Dec. 4, being the week of Cumberland County Court. Call and examine the premises.

### VERY DESIRABLE PROPERTY IN LUMBERTON FOR SALE.

BEING DESIROUS of removing to an adjoining County, I offer for sale the following property in the village of Lumberton:

1. The LOT on which I now reside, containing 11½ Acres, part reclaimed Swamp, and all very productive, and in a good state of cultivation, surrounded by a plank fence in good repair. The Dwelling house is in thorough repair, (part entirely new,) with all necessary out-buildings almost new, and very conveniently arranged; there is in the yard a Well of excellent Water, and there are on the Lot a great many different sorts of choice Fruits, and good vegetable and flower Gardens. The yard is on a high and healthy situation on the boundary line of the town, covered with a fine grove of natural growth. Altogether, it is believed to be the most desirable situation in the village.

2. The LOT on the corner of the Public Square and the Columbus road, adjoining the Presbyterian Church, containing about One-fourth of an Acre, on which there is a good Brick Office, containing Two rooms, each with a fire place.

3. A part of the LOT on Main Street, adjoining Mrs. Biggs's and Mrs. Daniel's Lots, on the corner opposite to Mrs. McQueen's residence, on which there is a small Building, and the best Well in town.

No village in this section of the country presents at this time, greater inducements to a business man than Lumberton. Pleasantly situated on Lumber River, where it is crossed by the Wilmington, Charlotte and Rutherford Rail Road, on which the trians now run regularly from that point, it must improve.

The above property will be sold either together, or separately, at very low prices, and on most accommodating terms.

### RICHARDSON'S
### IRISH LINENS, DAMASKS

DIAPERS, &c.

CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm,

As a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable, while purchasers can be imposed on with Goods of a worthless character.

### Land Sale.

UNDER a decree of the Court of Equity of Montgomery County, made at Fall Term, 1860, the undersigned will sell at Auction, on the premises at the residence of Temperance McDonald, on the 15th day of Nov. 1860, and on a credit of six months, a tract of LAND, known as the Munroe Mill place, formerly the property of the Hon. S. J. Person; and which he contracted to sell to Call McDonald. A tract of Land containing 615½ acres situated on both sides of Drowning Creek, lying partly in Moore and partly in Montgomery Counties. It has on it one of the best Mill seats in the State, the water being abundant and never failing, and little expense to make a Dam. Much of the Land is fertile and suitable for cultivation, and there is on it a large quantity of valuable timber.

Alexander Stuart or James L. Currie will show the lines to any person desiring to purchase the Land.

Any information in relation to the above Land can be had by reference to Hon. S. J. Person.

### MRS. WINSLOW,

AN experienced Nurse and Female Physician, presents to the attention of mothers her

**SOOTHING SYRUP,**
**FOR CHILDREN TEETHING,**

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is sure to regulate bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. We have put up and sold this article for over ten years, and can say, in confidence and truth, of it, what we have never been able to say of any other medicine—*Never has it failed in a single instance to effect a cure,* when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues.—We speak in this matter "what we know," after ten years' experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

**Mrs. WINSLOW'S SOOTHING SYRUP,**

This valuable preparation is the prescription of one of the most experienced and skillful Nurses in New England, and has been used with never-failing success in

**Thousands of Cases.**

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

**Griping in the Bowels and Wind Colic,**

and overcome convulsions, which, if not speedily remedied end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in Children, whether it arises from teething or any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

**FOR CHILDREN TEETHING.**

☞ Sold by Druggists throughout the world.

**Principal Office, No. 13 Cedar St., New York.**
**PRICE ONLY 25 CENTS PER BOTTLE.**

### FOR SALE AND NO MISTAK

THE subscriber being determined to move West, offers for sale the plantation on which he now lives in Bladen county. The plantation contains about 1 acres; about one half is as good farming land as the County affords, with about 200 acres cleared and in a high state of cultivation, and about 500 acres now as good swamp land as can be found in North Carolina; on the place is a good two story building and all necessary buildings; as well watered as any place in N. C. Also, about 1000 acres of as good Turpentine land as the county affords, the pines unboxed. Also, 1000 acres in Sampson county, of as good as the county or State affords, all unboxed and well timbered with as good tun timber as can be found. Also, 150 acres in Bladen, lying immediately on the S. & R. Road; the land is good for farming and turpentine; and if desired can be bought my brother's land adjoining the homestead, containing about 1500 acres of good farming and turpentine land. For further particulars call on the place or address me at Cypress Creek P. O., Bladen county. If not disposed of will be sold at public sale on the first day of Dec'r 1860. I will sell my stock, cattle and hogs and a team of mules if desired. Terms accommodating; call and see; a bargain can be had.

### CAPE FEAR LAN
### FOR SALE.

THE Subscriber offers for sale, *his PLANTATION* lying on the East side of the River, four miles below Fayetteville, known as the Blocker Land, containing 640 Acres. This place has the character of being among the best Tracts of Land on the river to the number of acres. It is about equally divided between Swamp and Hickory ridges. Lock's Creek, a fine water power, runs through the tract.

If desired, I will also sell 2 or 3 Hundred Acres good Farming Land of an adjoining tract. Also, Growing Crops, stock of Horses, Cattle, Sheep and Hogs.
